Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. The restriction requirement set forth in the Office Action mailed November 3, 2006 has been withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-102 are rejected under 35 U.S.C. 102(e) as being anticipated by Falcone et al. (U.S. Patent No. 6,836,540).

Regarding claims 1, 36, 71, and 90, Falcone et al. teach a method of offering a service (calling service) to a user. The method comprises receiving a dialed number (a destination point) from a request to initiate a collect telephone call from an origination source; processing the dialed number to determine whether payment may be received for the collect telephone call (determine the status of a calling service associated with the destination point), wherein the processing blocks the collect call and stores the dialed number when the processing determines that payment may not be received for the collect telephone call; and establishing a telephone connection with the dialed number to communicate an offer for the service to a user associated with the dialed number (column 3, line 43 to column 4, line 3).

Regarding claims 2-35, 37-70, 72-89, and 91-102, the limitations of the claims are either inherent or can be found along the teachings of Falcone et al. in the patent '540.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Barton et al. (U.S. Patent No. 6,307,926) teach a system for detection and prevention of telecommunications fraud prior to call connection.

Lehtinen (U.S. Patent No. 6,687,364) teaches a service provision in a telecommunications network.
